

UnCommon connectivity

Introducing the Commonwealth Worldwide Desktop “RezTracker”

Commonwealth’s *RezTracker* is designed to enhance your booking experience and make managing your ground transportation easier! Augmenting our *CWW Mobile* smartphone app, our *RezTracker* desktop application allows transportation coordinators to easily access, view and verify the details of your current reservations, share with your colleagues, retrieve receipts, and more....

You will now be able to:

- **Make a Reservation** – book a trip anywhere around the world, 24/7.
- **Trip List** – view all of the details of your upcoming trips, including current itinerary and reservation information “live” within our system.
- **Real Time Traffic, Flight Tracking & Weather** – one-click access to view the exact status of each of your active trips.
- **Track Your Vehicle(s) in Real Time** – see exactly where your car is via GPS mapping. (Please note that GPS tracking is available in many major markets. See our [website](#) for an up-to-date list.)

- **Email Live Map Links** – keep those who need to know up to date with one-time secure links to GPS tracking that will expire when the trip is complete.
- **View Your Receipts** – review your final charges from all of your past or recently completed trips.

Just contact us to set up access to this web-based application for your computer, or ask your Commonwealth salesperson for a demo. All you need is a browser to use it!
